R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```python
# Python with sklearn

import pandas as pd
from sklearn import linear_model

#npf_test = pd.read_csv("~/Intro_to_ML2022/initial_data/npf_test_hidden.csv")

npf_train = pd.read_csv("~/Intro_to_ML2022/initial_data/npf_train.csv")

npf_train
```
